

DAWSON BROWN

Lockheed Martin Corporation

Hello,

I'm a second year IT Programming college student with experience in Java, Javascript, C, C++, HTML, CSS, SQL, and Bash scripting; with my strong suit being java.

My grade average is currently 96.6, my strongest traits are being a quick learner and being great at following instructions to a tee. Computers have been a lifelong interest of mine, and I have grown incredibly familiar with them. I consider computers my passion, but to make it more concise I would consider game development and video games in general to be my main passion.

I am writing to apply for the position of junior software engineer; I am a great fit for this role as the job activities and additional skills desired align perfectly with the core skills I have been learning in my IT Programming course at NSCC.

The core language we have been practicing is Java. Starting with logic and programming in the first semester of year one we have had at least one class, sometimes two or more classes focusing solely on Java development; without a doubt Java is my strongest language. In these classes I have become familiar with using common IDEs like IntelliJ and Eclipse and have frequently used Github to save my work.

I have learned, put in practice, and become familiar with Agile and Scrum methodologies in my Systems Analysis and Design class. As well as continuing to grow my proficiency in Project Management despite only being a handful of weeks into the class. I have also learned key concepts about testing and development documentation and general engineering process in these classes.

In Project Management we have been working with groups each week, making me acclimatize to group work. I have also done multiple group projects, typically at the end of each semester I will have one group project in each class.

Spending a semester with my Operating Systems Linux class made me familiar with running Linux, I completed multiple assignments working with various features of Linux such as working in the terminal and creating scripts.

Sincerely,
Dawson Brown

I'm a programming student with interests in development. The languages I'm familiar with are Java, JavaScript, C, C++, Kotlin, SQL, CSS, HTML, and LUAU.

The courses I've completed so far are:

- Data Fundamentals
- Introduction to Networking and Security
- Logic and Programming
- Website Development
- Operating Systems Windows
- Operating Systems Linux
- Client-Side Programming
- Introduction to System Analysis and Design
- Professional Practice for IT
- Introduction to Object Oriented Programming
- Programming in C
- Partial completion of Harvard's CS50

The courses I'm currently completing are:

- Advanced Topics in Programming
- Programming in C++
- Mobile Application Development – Android
- Project Management
- Web Application Programming
- Professional Practice for IT II

Work Experience

Dishwasher/Prep Cook/Line Cook

The Evangeline - Longfellow-Nova Scotia

May 2023 to Present

- Consistently sanitizing cooking stations, following food safety guidelines
- Preparing veggies, meats, and sauces frequently for nightly use
- Performing closing duties solo and in a timely manner

- Cooperating quickly, efficiently, and in a friendly manner with kitchen and front of house staff including management personnel
- Cooking experience working with different types of foods, ranging from cooking steaks, stir-fries, and pastas to making simple salads and sandwiches
- Consistently maintaining inventory stock
- Training of new staff
- Production of menu items, as well as unique seasonal menu items

Line Cook/Prep Cook

The Kings Arms Pub-Kentville, NS

July 2019 to July 2023

- Consistently sanitizing cooking stations, following food safety guidelines
- Preparing veggies, meats, and sauces frequently for nightly use
- Performing closing duties solo and in a timely manner
- Cooperating quickly, efficiently, and in a friendly manner with kitchen and front of house staff including management personnel
- Cooking experience working with different types of foods, ranging from cooking steaks, stir-fries, and pastas to making simple salads and sandwiches
- Consistently maintaining inventory stock
- Training of new staff
- Production of menu items, as well as unique seasonal menu items

Dishwasher/Prep Cook

The Kings Arms Pub-Kentville, NS

July 2018 to July 2019

- Quickly and efficiently wash, sort and store high volumes of dishes
- Weigh and bag large amounts of various food portions daily for use in the meals
- Sweep and mop floors
- Clean and sanitize sinks, equipment, and garbage's
- Routinely bagged garbage
- Operate dishwasher equipment
- Closely examine dishes to ensure they are clean

Education

College diploma in Computer Programming

Nova Scotia Community College - Nova Scotia

September 2024 to Present

High School Diploma

Horton High School - Greenwich, NS

Skills

- Food Safety
- Food Preparation
- Kitchen Experience
- Cooking
- Culinary Experience
- Cleaning Experience
- Restaurant Experience
- Meal Preparation
- Food Service

Additional Information

Personal Skills

- Thrive in a fast pace environment
- Strong attention to detail
- Ability to follow directions
- Able to consistently maintain the standard of cleanliness expected of me in the workplace
- Quick learner of frequent new tasks
- Organized
- Calm under pressure
- Knowledgeable in various computer programs used in typical businesses
